In the Claims:

Please amend the claims as follows:

Please cancel claims 1-78 and 82-90 without prejudice to or disclaimer of the subject matter contained therein.

Please amend the claims as follows:

79. (Once amended) A substantially purified nucleic acid comprising a nucleotide sequence selected from the group consisting of one of SEQ ID NO: 1-3 or 34, and a fragment of SEQ ID NO: 1-3, or 34 that possesses a functional regulatory region and is at least about 8 nucleotides in length.

81. (Once amended) A vector comprising a substantially purified nucleic acid as claimed in claim 79.

91. (Once amended) A substantially purified nucleic acid comprising a nucleotide sequence selected from the group consisting of SEQ ID NO: 1-3 and 34, wherein the nucleotide sequence comprises a functional regulatory region.

97. (Once amended) A substantially purified nucleic acid comprising a nucleotide sequence selected from the group consisting of fragments of SEQ ID NO: 1-3 and 34, wherein the nucleotide sequence comprises a functional regulatory region, and is at least about 8 nucleotides in length.

109. (Once amended) A cell comprising an introduced, substantially purified nucleic acid, wherein the nucleic acid comprises a nucleotide sequence selected from the group consisting of fragments of SEQ ID NO: 1-3 and 34, wherein the nucleotide sequence comprises a functional regulatory region and is at least about 8 nucleotides in length.

115. (Once amended) A vector comprising a substantially purified nucleic acid, wherein the nucleic acid comprises a nucleotide sequence selected from the group consisting of SEQ ID NO: 1-3 and 34, wherein the nucleotide sequence comprises a functional regulatory region.

121. (Once amended) A vector comprising a substantially purified nucleic acid, wherein the nucleic acid comprises a nucleotide sequence selected from the group consisting of fragments of SEQ ID NO: 1-3 and 34, wherein the nucleotide sequence comprises a functional regulatory region and is at least about 8 nucleotides in length.
